

Gurunanak College of Pharmacy

Established in 2004

Kamptee Road, Nari, Nagpur (M.S.) - 440 026.

NIRF ranking (75-100 rank band in 2018; 49th in 2017), AICTE-CII survey (Platinum in 2018;

Gold rank in 2016 & 2017), PCI, AICTE approved, Permanently affiliated with RTMNU

Accredited by NAAC with 'B' grade

6.2.1 - The institutional Strategic/ perspective plan is effectively deployed – Additional information

The management of the college, Principal, College Development Committee (CDC), along with the IQAC design the developmental plans for the college.

The governing body, CDC, and IQAC have members from the industry, academia, education departments who contribute to the designing of policies that satisfy the requirement of the current needs of education. At the beginning of each academic year, the IQAC and CDC take the review of new faculty recruitments, infrastructural requirements, financial planning, updation of support facilities etc. The principal is the administrative head of the college and looks after all the activities of the institute. The institute has constituted various committees with clear responsibilities. These committees are responsible for the development, maintenance, and updating of the activities that fall under their jurisdiction. These committees directly report to the Principal.

Objective

It is envisioned that Perspective plan of the college goes hand in hand with vision and mission as well as with long term goals. SWOC analysis played key role for development of strategies to implement perspective plan. The said plan consists of following key performance indicators:

1. Increase in the number of publications by students and faculty

Last 2 years have yielded increased number of publications consistently and every year publications by students are also increasing. Now the systematic efforts are being put to increase the quality of publications. A certificate course on developing the project writing and presentation skills has been started. The students present their and others' research projects in the journal club activity. With all these efforts, publications in journals having higher impact factors with improvement in h-index are aimed.

2. Enhancement of research in PG and PhD departments

Good quality publications are followed by sound research work. Thus, to enhance research projects through funding and collaborations is required. Stakeholders and management has passed resolution to award cash prize for staff members on publications in high impact journals.

3. Infrastructure and facility upliftment

The institute plans to improve the infrastructure and facilities to higher level. Green initiative and energy conservation projects are discussed and will be gradually rolled out. Entire campus is having internet with 30MBPS speed. This is being upgraded upto 100 MBPS in coming days. The college library committee through IQAC has plans to increase the number of book titles covering books and reference books. Classroom furniture will be changed phase wise.

4. Teaching-learning

With changes in teaching means and content delivery, smart classrooms are much needed. Upgradation of classrooms to equip better with changing scenario is kept in mind to procure smart projectors and screens. The college already has VMEdulife software for LMS, teaching-learning, content delivery, administration and posting new events. The institute has additional plans supporting teaching learning like skill enhancement, training and placement as well as personality development.

5. Governance and administration

Pivotal role is played by administration in successful running of institutes. We have recently purchased VMEdulife software that has multifunctional role of LMS, administration and ERP. Office, library and exam section is being shifted to paperless and online mode as part of green initiative and time saving.

6. Student welfare

Mentoring system has been initiated to help the students. Counseling of students through this is further planned in coming sessions. Training and placement cell plans to empanel

more number of industries for internship. Entrepreneurship Development cell will have more number of activities to help students to understand process to become entrepreneur.

7. Corporate social responsibility

The institute plans to hold community rallies for awareness of hygiene and common diseases. NSS unit is also has plans to visit orphanages and providing winter clothes to needy persons. Previous programs like blood donation and blood glucose determination will also be continued further. Further efforts to create Environment friendly campus are envisioned through green initiatives and energy, rainwater conservation.

8. Faculty welfare

To encourage faculty members for research, publications and participation in seminars, workshops by providing required financial support for the same. The college also plans to organize programs for holistic well being and stress relaxation.

9. MOUs and collaborations

MOUs and collaborations with industries and institutes will be increased to have research opportunities, industrial training and placements.
