Dear Sir/Madam,

Greetings from The Way to Happiness Foundation India.

Couple of months back I had sent you *Scientology Tools for Life* DVD. I hope it would have been helpful.

Scientology is defined as the study and handling of the spirit in relationship to itself, universes and other life. Thus, the mission of Scientology is to help the individual regain his true nature as a spiritual being and thereby attain an awareness of his relationship with his fellow man and the universe. The intelligence of Scientology came from nuclear physics, higher mathematics and the understanding of Ancients of the East and scriptures such as the Vedas. More about Scientology can also be found at [www.scientology.org](http://www.scientology.org)

Here I am sending you Scientology **A NEW SLANT ON LIFE** Book & Audio Book as a Free Gift for you Library. This is also one of my favourite book and I hope that it will interest you and will find space in your library. We are planning to tour your State in coming months and deliver FREE seminars in educational institutions, please let me know of your interest.

It would be very helpful and a token of appreciation for our donators if you could send an acknowledgement letter on you letter-head with your thoughts about the sent FREE Books. It will also help us to provide your library with more such free educational tools.

Please take a moment to fill the form at the back side and send us back via the sent *stamped* envelope. Kindly send it's scanned copy at [thewaytohappinessindia@gmail.com](mailto:thewaytohappinessindia@gmail.com) or WhatsApp its pic at 9910870803.

Sincerely,

The Way to Happiness Foundation India

Dear Sir/Madam,

TWHP

Greetings from New Delhi.

I am happy to send you Scientology The Fundamental of Thought Book & Audio Book as a Free Gift for you Library.

Here the author Mr. L. Ron. Hubbard says that, "This thin book is a summation, if brief, of the results of fifty thousand years of thinking men... which have brought the humanities, so long outdistanced by the "exact sciences", into a state of equality, if not superiority, to physics, chemistry and mathematics."

I hope you will find this book interesting and suitable for your library.

Scientology is defined as the study and handling of the spirit in relationship to itself, universes and other life. Thus, the mission of Scientology is to help the individual regain his true nature as a spiritual being and thereby attain an awareness of his relationship with his fellow man and the universe. The intelligence of Scientology came from nuclear physics, higher mathematics and the understanding of Ancients of the East and scriptures such as the Vedas. More about Scientology can also be found at [www.scientology.org](http://www.scientology.org)

Please take a moment to fill the form at the back side and send us back via the sent stamped envelope. Kindly share it's scanned copy at [thewaytohappinessindia@gmail.com](mailto:thewaytohappinessindia@gmail.com)

It would be very helpful and a token of appreciation for our donators if you could send an acknowledgement letter on you letter-head with your thoughts about the sent FREE Books. It will also help us to provide your library with more such free educational tools.

Sincerely,

The Way to Happiness Foundation India
